

Spot Pro FAQ's

UK Standard Specification

- Supplied bulb is the LEDVANCE GU10 bulb
- 2700k – 6W – 350lm – CRI 97 – Dimmable
- This bulb has 36° beam angle

US standard Specification

- Supplied bulb is TBC

High CRI – perfect for lighting artwork

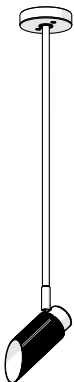

- CRI = Colour Rendering Index, measured from 0-100% of the colour spectrum
- Most standard bulbs are CRI>80, showing 80% of the colour spectrum
- A CRI>90 is considered excellent, showing the most true colours of an object.

3rd Party lamp options

- For greater customisation of beam angles, colour temperature and snap-on attachments, recommend Soraa VIVID MR16 – GU10
- Part No. – SM16GW-07-10D-927-03-S3
- <https://www.soraa.com/products/19-MR16-GU10.php#>
- Suitable versions available for both UK/EU and US regions
